SATJAN20

**PROMOTING ACTIVE ENGAGEMENT
IN THE MATHEMATICS CLASSROOM**

OHLONE COLLEGE NEWARK CAMPUS 8:30AM – 1:30PM
INCLUDES CONTINENTAL BREAKFAST AND LUNCH

**Curious about how to get students
more involved in their own learning?**

**Do you wonder about the role
of the teacher while students are
engaged in discourse or group work?**

Please join members from the Bay Area Basic Skills Partnership and Bridging the Gap Partnership for a conference focused on active student engagement in math classes. Faculty and teachers from local High School, Community College, and CSU campuses will be sharing strategies and practices they use to engage students in active learning and making this learning visible.

Presentations may include:

Strategies to support students' engagement with their notes

Using white boards to promote student discourse

Teaching strategies to promote productive group work

Using technology to support student discourse

With keynote speaker:

Dr. Eric Hsu, Center for Science and Math Education, SFSU

After presentations by faculty using these strategies to solve problems of practice, participants will engage in facilitated dialogs to support personal planning and implementation. Participants will learn strategies they can put to immediate use in their own teaching.

Hosted by math faculty and teachers from Berkeley Unified School District, Oakland Unified School District, Berkeley City College, College of Alameda, Laney College, Merritt College, Diablo Valley College, Mission College, Chabot College, Ohlone College, Cal State East Bay, San Jose State University, and San Francisco State University.
